

# Bolivia

**Overall Risk Score: 66**

**Risk Level: high**

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is “good” or “poor” are made relative to all other jurisdictions within that domain.

- 1. Business Interactions with Government:** Bolivia receives a poor score of 83 in this domain, based on a high degree of government interaction, a high expectation of bribes, and a high regulatory burden.
- 2. Anti-bribery Deterrence and Enforcement:** Bolivia receives a poor score of 69 in this domain, based on a low quality of anti-bribery dissuasion and a low quality of anti-bribery enforcement.
- 3. Government and Civil Service Transparency:** Bolivia receives a medium score of 60 in this domain, based on poor governmental transparency and medium transparency of financial interests.
- 4. Capacity for Civil Society Oversight:** Bolivia receives a medium score of 41 in this domain, based on a medium degree of media freedom/quality and a medium degree of civil society engagement.
