

Micronesia

Overall Risk Score: 51

Risk Level: medium

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is “good” or “poor” are made relative to all other jurisdictions within that domain.

- 1. Business Interactions with Government:** Micronesia receives a good score of 46 in this domain, based on a medium degree of government interaction, a low expectation of bribes, and a medium regulatory burden.
- 2. Anti-bribery Deterrence and Enforcement:** Micronesia receives a medium score of 52 in this domain, based on a medium quality of anti-bribery dissuasion.
- 3. Government and Civil Service Transparency:** Micronesia receives a poor score of 77 in this domain, based on poor governmental transparency.
- 4. Capacity for Civil Society Oversight:** Micronesia receives a medium score of 35 in this domain, based on a high degree of media freedom/quality and a low degree of civil society engagement.

TRACE Bribery Risk Typology:

Democracy with simpler economy

This group is typified by stable democratic government and an economy largely built on the export of a limited number of simple products.
